DATA CORRECTIONS

The data correction window for the December 2023 STAAR administration is **January 22–January 26, 2024**. Districts must resolve student information and test discrepancies and may submit score code changes and rescore requests for the December administration during this window. Refer to the Data Corrections section on the [Reporting Events](#) page of the *Coordinator Resources* for more information on data corrections, including costs associated with rescore requests.

Changes submitted during the data correction window will be reflected in the final assessment reports for accountability provided on **March 25**.
