As a parent of four children myself, I know that no single test can tell me everything about my children. However, the STAAR Alternate 2 tests have been designed to provide useful information about how much our children have learned academically and how well prepared they are for what comes next. This report gives you information on how your child is performing on prerequisite skills aligned to your child's grade level and provides resources for you to help them learn even more.

Mike Morath, Commissioner of Education

Understanding the STAAR Alternate 2 Report Card

Your child took STAAR Alternate 2 in spring 2023. Students respond to questions asked by a trained test administrator in a one-on-one setting. Test questions are based on prerequisite skills linked to the Texas Essential Knowledge and Skills (TEKS), the statewide curriculum. The content and skills tested on each STAAR Alternate 2 assessment are grouped together into reporting categories.

The generic report images below provide details about what information is provided in the STAAR Alternate 2 Report Card.
